

Kneale Administration Building

Kris Spellman

Director of Nutrition Services

Dear Parent or Guardian,

GIPS Nutrition Services no longer requires a new Medical Statement form every year for a student who has one on file from previous years.

We do, however, need confirmation from the parent that the child still has the medical need for a meal substitution. Please fill in the information below:

If your child is a new student or has a new disability that requires a medically necessary menu substitution, please have your physician fill out a new form. This can be obtained from our Website, your school Nutrition Services office, or you School Nurse.

Thank you for your cooperation.

Sincerely,

Kris Spellman, R.D., S.N.S.
Director of Nutrition Services
Grand Island Public Schools

My child's _____
Student Name Last/First/Middle Initial Date of Birth

Medical condition requiring a special meal has **not** changed since I submitted a "Medical Statement for Students Requiring Special Meals" in a previous school year.
